

## EXPERIENCE

LED-Signs is a leading provider of LED sign technology in Australia. We have been supplying the advertising sector for over 35 years. Our experience in the industry means that our development, design and manufacturing processes are industry benchmarks.

## EXPERTISE

LED-Signs specialises in indoor and outdoor solutions which combine superior design, longevity, and environmental toughness. Our product range includes video super screens, multimedia displays, multi-line & scrolling signs, menu boards, gaming displays and scoreboards.

## VERSATILITY

Our versatility means that we can custom design visual display solutions for advertising organisations, architects, signage providers, clubs, hotels, cinemas, mines, airports, schools and retail organisations.

LED-Signs offer a range of eye catching, high-tech advertising solutions.

From point of sale displays to large advertising screens, LED-Signs' range of visual display solutions are flexible and suit both indoor and outdoor applications.

Our advertising solutions include:

- Billboards applications
- Outdoor advertising displays
- Point of sale displays
- Architectural applications
- Time and temperature displays

Our advertising options include:

- Static or scrolling signs
- Full colour RGB screen applications
- Pylon applications
- Wireless technology
- User friendly software interfaces to allow scheduling or instant updating

## POWERFUL AND EFFECTIVE

The versatility and high visibility of LED technology means that it is a powerful and effective advertising tool.

Our signs allow you to change your advertising messages as often as you like at no cost!

## Billboard Applications

LED-Signs' billboard applications can display text, full colour graphics or video. Our billboard displays include a range of high quality display boards and curtain applications.

## Outdoor Advertising Displays

Outdoor pylon signs provide opportunities to attract attention and promote events and specials to passing traffic. Our outdoor advertising displays also include wall fascias and static or scrolling awning signs.

## Point of Sale Displays

Scrolling LED POS displays draw shoppers to the point of sale. They are a low cost, simple and very flexible way to attract attention and convey information. All our signs are custom made to fit any interior or application.

## Architectural Features

LED signs add ambience and functionality by creating a focal point that is both informative and attractive to look at. LED décor displays suit indoor or outdoor applications and range from single line scrolling signs to large full colour screens.

## Time and Temperature Displays

Time and temperature displays draw attention to static signage. Our displays are accurate and robust and include options such as advanced weather station housing, a sealed temperature sensor, wireless communication options and GPS to ensure complete accuracy.
