

EXPERIENCE

LED-Signs is a leading provider of LED sign technology in Australia. We have been supplying both major and independent cinema complexes for over 35 years. Our experience in the industry means that our development, design and manufacturing processes are industry benchmarks.

EXPERTISE

LED-Signs specialises in indoor, as well as outdoor solutions which combine superior design, longevity, and environmental toughness. Our product range includes box office displays, video super screens, multimedia displays, multi-line & scrolling signs, menu boards and scoreboards.

VERSATILITY

Our versatility means that we have custom designed visual display solutions for cinemas, advertising organisations, signage providers, casinos, clubs, hotels, airports, schools, architects, builders, mining and retail organisations.

LED-Signs' Cinema Solutions combine quality, purpose built displays and custom designed software that can operate as stand-alone systems or be integrated with most popular ticketing systems.

Our cinema solutions cover all areas of cinema operations from box office displays to candy bar advertising.

Our cinema applications include:

- Box office displays
- Cinema door displays
- Queuing system applications
- Architectural features
- Advertising applications

Our cinema applications feature:

- Ticketing system integration
- Single and full colour options
- User-friendly software allowing the flexibility to display program information, movie trailers and advertising.

Cinema Solutions

Box Office | Ticketing | Candy Bar

INTEGRATED CINEMA SYSTEMS

LED-Signs' Textlite product is favoured by large national cinema complexes as well as independent operators. The system interfaces to most popular ticketing systems or can operate as a stand-alone system.

Our range of cinema systems are renowned for their longevity, are low maintenance and economical to run. They are designed to enhance the entertainment experience and provide accurate and timely information to cinema goers.

Box Office and Cinema Displays

LED-Signs' Textlite electronic display systems for ticket box programming information and door signs has been the industry benchmark since being supplied to the Hoyts George Street Sydney Cinema Complex in 1987.

Architectural Features

LED signs can add ambience as well as functionality to any décor by creating a focal point that is both informative and attractive to look at. LED décor displays range from single line scrolling signs to large full colour screens.

Advertising Applications

LED-Signs offer contemporary, high-tech advertising solutions. From full colour outdoor billboards to candy bar displays, LED-Signs' range of visual display solutions are flexible and easily updated.

RGB Screens

Full colour RGB screens are an exciting and dynamic visual feature. They give cinema managers the flexibility to display programming information, show trailers, and advertise specials.
