

Experience | Expertise | Versatility

LED-Signs is a leading provider of LED sign technology in Australia with over 35 years experience. Our experience in the industry means that our development, design and manufacturing processes are industry benchmarks.

Flexible design and the latest technology

All our indoor signs include the latest technology and are easy to programme. Messages can be simply updated or scheduled to change at regular intervals. Our modular design approach means that we can custom design visual display solutions in any size for all indoor applications. LED-Signs' product range includes single and multi line scrolling signs, single, tri and full colour displays, text, graphic and RGB video screens.

Solutions for all applications

- Point of sale advertising
- Cinemas
- Way finding
- Scoreboards
- Casinos, clubs & hotels
- Warehouse & safety
- Office foyers
- Airports
- Schools & churches
- Architects & builders
- Menu boards
- Underground car parks

Our signs are easy to update and are available with a number of communication options including GSM, Next-G, wireless Bluetooth, LAN and serial.
