Traffic & Transport Solutions

Parking | Public Transport | Traffic Management

EXPERIENCE

LED-Signs is a leading provider of LED sign technology in Australia. We have been supplying the transport sector with traffic management signage for over 35 years. Our experience in the industry means that our development, design and manufacturing processes are industry benchmarks.

EXPERTISE

LED-Signs specialises in indoor and outdoor solutions which combine superior design, longevity, and environmental toughness. Our product range includes full colour screens, multimedia displays, multi-line & scrolling signs, mobile trailers, gaming displays and scoreboards.

VERSATILITY

Our versatility means that we can custom design visual display solutions for public transport hubs, parking stations and traffic management applications as well as for airports, the mining industry, architects, signage providers, clubs, hotels, cinemas, schools, retail and advertising organisations.

The versatility and high visibility of LED technology means that it is powerful and effective communication tool.

All our signs are ultra-bright for high sunlight areas and are legible from greater distances than similar sized static signs.

Our traffic and transport applications include:
- Airport solutions
- Traffic management
- Rail displays
- Bus and timetable displays
- Car park applications
- Mobile trailer applications

Our traffic and transport applications feature:
- Static or scrolling signs
- Full colour RGB screen applications
- Mobile trailer signs
- User friendly software interfaces for scheduling and instant updating
