

Belmont 16s

Full Colour Double Sided LED Display

Location:

Belmont 16's Club, Lake Macquarie, NSW

Brief:

Supply a LED screen that is highly visible in both daylight and at night, and can display full colour images, text as well as time and temperature.

Solution:

- Double sided, RGB graphic LED display
- 1938mm x 914mm outdoor
- 16mm pitch
- Bluetooth communication

This LED display forms part of a 6 metre high pylon sign designed and installed by SWS Signage.

"Not only is the sign visible day and night," says Michael Evans of SWS Signage, "the LED component integrates very well with the pylon design, it is simple to update and our client is thrilled with the result!"
